

# If it Walks Like a Duck and Quacks Like a Duck - it may be an Animal Rights Fanatic

*Know the difference between Animal Welfare and Animal Rights*

Animal welfare groups are working to see that all animals are treated humanely.

Animal rights groups are working to see that **all ownership of animals comes to an end.**

## ANIMAL RIGHTS

Animal Rights organizations have been classified by the FBI as a domestic terrorism threat. Today's animal rights organizations are multi-million dollar non-profits paying themselves hundreds of thousands in salaries from their donor baskets. Their war chests are being used to get "their" candidates elected. One of their main objectives is to take away your right to own or breed pets community by community, state by state.

## THE ANIMAL RIGHTS AGENDA

End all human "exploitation" of animals - this includes, but is not limited to:

- Raising and slaughtering of livestock for human or animal consumption
- Eating meat
- Hunting
- Using animals for any medical or veterinary research
- Zoos (regardless of how well managed)
- Circuses
- Rodeos
- Horse shows
- Dog shows
- Cat shows
- Bird shows
- Animals performing in TV commercials, shows or movies (regardless of how well treated any of the above are)

- Guide-dogs for the blind
- Police dogs
- Search & rescue dogs
- **AND THE PRACTICE OF OWNING PETS**

## KNOW THE ANIMAL RIGHTS PLAYERS

- Humane Society of the United States (Operates **ONLY ONE** shelter - is a **MAJOR** political lobbying entity)
- PETA (two employees arrested last year for cruelty to animals after killing puppies and kittens, dumping them in garbage bins and getting caught in the act)
- Animal Protection Institute (API)
- Avian Welfare Coalition
- Fund For Animals
- Farm Sanctuary
- National ASPCA, etc.

## ANIMAL WELFARE

The American Veterinary Medical Association defines animal welfare as "a human responsibility that encompasses all aspects of animal well-being, from proper housing and nutrition to preventative care, treatment of disease, and when necessary, humane euthanasia." Scientists and laboratory veterinarians are firmly committed to animal welfare. The American Association for Laboratory Animal Science (AALAS), an organization dedicated to advancing responsible care and use of laboratory animals, was founded before there were any federal laws regulating animal research.
